natural disasters – volcano – hurricanes – earthquakes - predict-warning -messages-homeless

Write your outline here

Reading Comprehension (20)

Read the following passage carefully, then answer the questions below:

The Rio Grande is one of the most important rivers in America. Unlike other rivers, it is not used for shipping. What makes the Rio Grande so important is its location. Since 1846, it has been the official border of Texas and Mexico.

The Rio Grande is either the fourth or fifth longest river system in North America. It all depends on how it is measured because the river twists so much. At its last official measure, the Rio Grande was 1,896 miles. The river starts in Colorado and extends downward to the Gulf of Mexico.

Its name is Spanish for the "Big River," but the Rio Grande is known as Rio Bravo in Mexico. "Bravo" is translated as "furious," so the name makes sense. Because of its twists and turns.

The Rio Grande today is mostly used as a source of drinking water. Sadly, parts of it are almost dry! This is because people use more water from the river than the river can get back from rain and other sources. Scientists are working to correct this. Today, the river is important as a source of water for Texans and Mexicans. More important, it is a symbol of unity between two nations. The Rio Grande is therefore a symbol of friendship and peace between two peoples.

A) from a, b, c and d choose the correct answer: (4x2½=10)

23. The best title of the passage is.....

- a) The Rio Grande River
- b) American Rivers
